What's Hot...

« FASHION FIX

If you're not hot on summer's whole fluoro/neon thing but don't want to skip the trend altogether, these vibrant Jane Carr scarves are the perfect way to nod to the trend without looking like a 1980s throwback. They're also fabulously multi-functional; tie one round your neck, wrist or hair, or drape it stylishly off your bag and there'll be no reason to feel guilty about the Dhs1,200 price tag.

* Jane Carr scarves are available exclusively at Boutique 1.

WHAT'S ON MY IPOD?

"In another life I'd be a singer. I love to sing and I often subject my poor nephews and nieces to a dose of it," says Dina Saleh, co-owner of kitschy boutique S'uce. Here she tells us who rocks her music world...

All Diana Krall's albums: I'll listen to her anytime, anywhere, any day - she's got an extraordinary talent for creating music that speaks personally to anyone who hears it.

El Cuarto de Tula by Buena Vista

Social Club: Whenever I listen to this track in my car, I feel like pulling over and dancing to it right there and then!

Stronger Than Me by Amy Winehouse: Her music is super cool, she brings a contemporary edge to old-fashioned soul.

Just Like Heaven by The Cure: Simply timeless, how can anyone not love The Cure?

Dance Me To The End of Love by Madeleine Peyroux: her smoky voice makes this a great chill out tune.

Timelapse by Jiva featuring Rula on Sharam, Dubai: Sharam is part of the Deep Dish duo and my sister does the vocals on this deeo house track which makes it an automatic favourite.
